

HELP US MAKE A DIFFERENCE

ABOUT US

The Pinellas Education Foundation is a coalition of business and community leaders who collaborate to improve the quality of public education. Together, we advocate for public education achievement, create programs to improve student and teacher performance, and raise funds for scholarships, grants and teacher recognition.

Take Stock in Children provides scholarships to deserving students in Pinellas County. Mentors inspire and guide young minds along with school-based ambassadors to keep track of student progress and enhance student learning through enrichment activities.

Lunch Pals is a lunch time mentoring program where employees of businesses, community organizations and individuals are paired with a school to provide students with the additional presence of caring adults.

Enterprise Village and Finance Park volunteers assist fifth and eighth grade students, respectively, in the exciting, fast-paced world of hands-on economics. Volunteers help small groups of students with tasks pertaining to free enterprise and financial literacy.

Elevating Excellence and Pinellas County Schools have opened College and Career Centers in all 17 high schools. Volunteers meet with students to help them navigate the college-going process.

Next Generation Entrepreneurs is an after-school program where students develop a product or business and connect with business mentors to bring their ideas to life. Winning teams compete for scholarship money. Volunteers with this program can serve as ongoing mentors, judges or one-time guest speakers.

Last year...

677 Take Stock in Children mentors held more than **19,000** mentor sessions to ensure student academic and social success.

Volunteers helped more than **7,500** students in Enterprise Village and **7,000** students in Finance Park.

Volunteers helped more than **9,500** students plan their futures at the College and Career Centers in nine high schools.
